[Reflecting on Measurements in an Agile World](#)

[Impediments to Agile Success](#)

[Inflategate, Mastering Overestimation](#)

[Keep the Baby](#)

### Candidates for this course include:

- AS A Product Owner I WANT to represent the business and stakeholders SO THAT value is delivered frequently to the business
- AS An aspiring professional I WANT to be certified SO THAT my credentials are recognized and I can lead and influence new initiatives based on my expanding skillset
- AS A member of the Scrum team I WANT to be capable SO THAT our teams AND organization are successful delivering value and improving practices
- AS A sponsor I WANT competent Product Owners SO THAT their participation and availability sustain delivery by the developers

### Objectives:

- Prepare Product Owners to understand their role on a Scrum team representing the priorities of the business
- Enable product owners, business partners, and management to make informed choices about agile practices
- Understand, apply, and contribute to the success of scrum-based work as a Product Owner
- Improve overall knowledge of Scrum, the most utilized agile approach
- Explore the significance of teams and your role in maturation
- Prepare Product Owners to participate in Scrum-of-scrums and organizational scaling of agile and Scrum

### Topics . . .

- Agile & Scrum Principles
- What is agility? Is your culture ready?
- Roles: Development Team, Scrum Master, Product Owner
- The Prioritized Product Backlog, grooming and change
- Agile planning: Roadmaps, features, stories, tasks, & sizing
- Scrum lifecycle and the Product Owner's role during: Initiate, Plan & Estimate, Implement, Review & Retrospect, Release
- Scrum of Scrums (Scaling)
